

Multiple Pumps

Sigma Hydraulics, can assemble a variety of tandem or multiple pumps to your specification upon request.

With many capacities and sizes of basic gear-pump readily available, we can build a combination of Group 1, Group2 & Group3 pumps to suit most applications. The usual limit being 4 pumps.

Combinations are..

2PB-1PB
2PE-1.5PB
2PE-2PE
3PB-2PB
3PB-2PE
3PB-3PB

Common suction or fully separated stages are available on Group2 pumps only.
