

Hydraulic Power Units

Sigma Hydraulics can build and supply Hydraulic Power units in a range of standard 25, 40, 80 and 130 litre working capacities.

Larger capacities and custom tanks are available upon request.

Gear or Piston pumps, single or tandem, Manifolds, Valving combinations, Pressure gauges, Filters and accessories, Pushbutton or Rotary (lockable) starters.

Sigma Hydraulics can design and custom build to your specific requirements.

Please [contact](#) our sales team to discuss your application.
